Virtual Open House

On February 23, 2022, SABIS[®] International School — Adma hosted a Virtual Open House event for new parents to learn more about our Early Childhood Education Program. Attendees learned more about how we set the stage for children's first years in school and ensure a strong educational foundation upon which future learning is built. They had the opportunity to virtually visit SIS-Adma and learn more about its education, student life, and graduation; in addition to e-meeting the School Director, High School Academic Quality Controller, and Infants Department heads.

- TEACHERS' DAY
- ONE CHILD, ONE GIFT

Model United Nations (MUN)

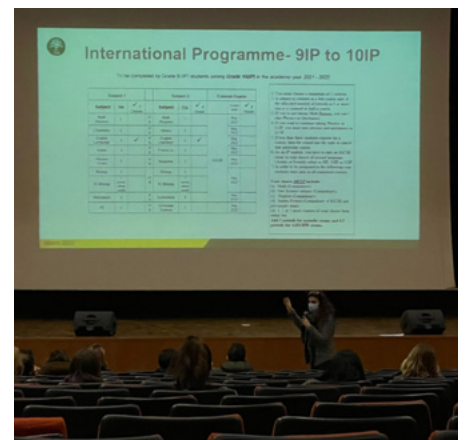

“MUN has changed my perspective on many things including how I act. It has taught me research skills, diplomatic discipline, and confidence while public speaking. I recommend this experience to everyone.” – Ely Nicolas Shoucair, Grade 10

“MUN has taught me a variety of social skills. Personally, I am a very sensitive, nervous, and shy person. However, MUN truly gave me the self-confidence I needed, which will definitely positively affect me in the long run.” – Lama Jerdak, Grade 7

Grade 8 Parent and Student Orientation

Parents were invited for an orientation session on the transition of their students into High School, and how the SABIS® curriculum prepares their students for university, whether they choose the Lebanese/ French Baccalaureate or International Program (IP). Parents of IP students participated in a discussion on choosing the right subjects for their child.

Parents were invited for an orientation session on the transition of their students into High School

Teachers' Oum El Noor Workshop

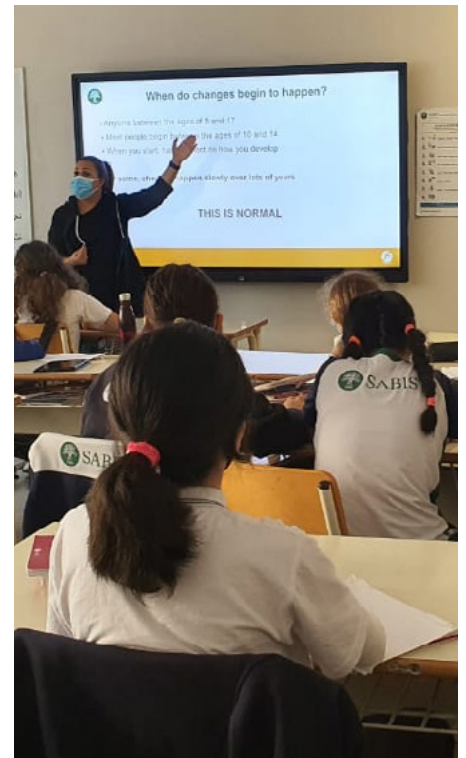

This year's challenges required a much-needed workshop. Oum El Noor's team of professionals held a session where teachers learned how to recognize the triggers of their emotions. They were given a chance to openly express their feelings and share powerful experiences. They were also given tips and techniques to effectively communicate and resolve difficult situations.

Puberty Awareness Sessions

Puberty is a confusing time for all young adults, especially in an era when they are greatly exposed to a certain amount of misleading information on the Internet. It is during that time that a child's body, emotions, and thoughts start to become those of a young adult. Children are conscious of these changes, and they are curious to know more about them and their impact on others. Moreover, they need to be reassured that it is all part of their normal development. In order to ensure that our students are getting the correct information in the most scientific way and as part of our responsibility towards them, two sessions about puberty were given by professionals to students in grades 6, 7, and 8. The sessions were very interesting and students were very eager to learn and ask about puberty.

The sessions were very interesting and students were very eager to learn and ask about puberty.

The Institute of the Environment – UOB

The Institute of the Environment (IOE) at the University of Balamand (UOB), in collaboration with the Marine and Coastal Resources (MCR) Program, is currently implementing a project promoting marine biodiversity and improving fishery potential and marine ecotourism activities through the deployment of artificial reefs off the Lebanese coast. Consequently, they visited our campus and explained to our students the importance of marine life.

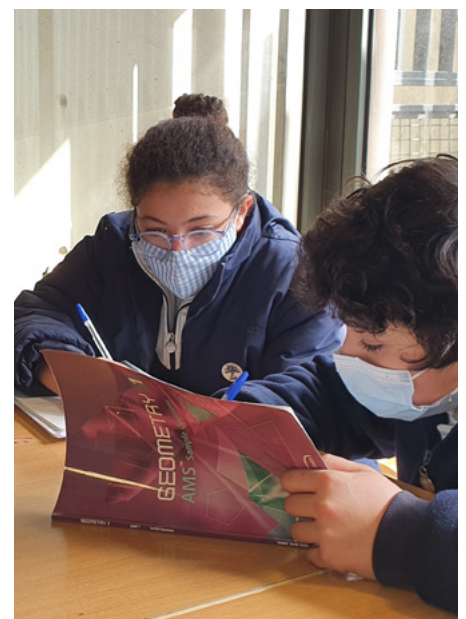

SLO Stories

Peer Tutoring for Grades 6, 7, and 8

“Tutoring is when a student helps another student with lessons learned in class and creates a special bond between classmates. Tutoring is important because it allows students to understand an important concept from a friend in a simplified way which is easier to comprehend.” – Nakhle Zgheib, Grade 6

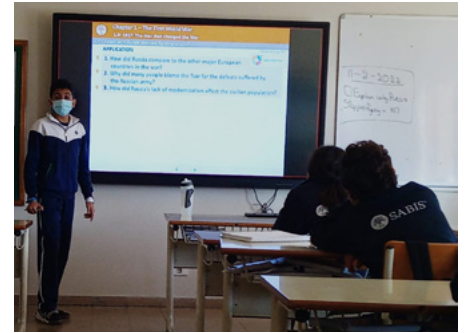

“I think that adding peer tutoring to the school system is amazing because not only does the tutee benefit, but also the tutor. The tutor will learn a lot more about the subject he/she is teaching, as well as the tutee. That is why it is extremely important.” – Anna Naffah, Grade 6

Shadow Teaching

“I was so happy to have taken part in the Shadow Teaching experience in class. It gave me greater self-confidence and more appreciation for the teacher’s role. Thank you, SABIS®, for always giving us opportunities to prove ourselves.”

– Christian Al Makary, Grade 8

School Christmas Tour

“Christmas with the SLO was an unforgettable one. It felt like we were one big family spreading our glee as we pranced around school playing and singing along to Christmas carols.” – Amy Abi Badra, Grade 12

International Women’s Day

At our school, we stand in solidarity with creating a more equal world. We salute and are proud to celebrate the women who make our school a better place. Our students stood in solidarity with all the women of the world.

Christmas Concert for Grades 1, 2, and 3

The Christmas Concert for grades 1, 2, and 3 was a great experience for the kids as they got to perform a show for the teachers and staff. The kids worked hard and practiced very well to make the concert enjoyable. Everyone enjoyed watching the kids sing and do a fantastic job.

Christmas Activities for Grades 1, 2, and 3

“One whole Christmas week was dedicated to the students in grades 1-3 to lift their spirits during the holidays. This event involved plenty of fun and surprising games for each grade such as coloring, writing Santa letters, bowling, pin the nose on Rudolph, word search, maze, and many more. Christmas week was such a fun week because we got to enjoy many games and races that got us into the Christmas spirit.” – Cataleya Hachem, Grade 3

Valentine's Day Celebrations

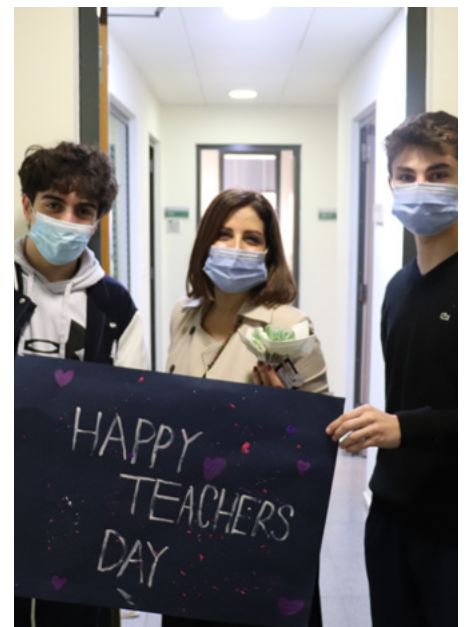

“We went to every building in school distributing flowers to all the staff to thank them for all the hard work they have done for us during this tough year. Helping put a smile on everyone's face that day made it the most memorable day of the year.” – Joseph Saab, Grade 12

Teachers' Day

“On Teachers' Day, I felt amazing and got the opportunity to give my teachers a gesture of appreciation to show them how much I love them and how grateful I am for everything they have done.”
– Kiana Maalouf, Grade 6

“The SLO Teachers' Day celebration was one of the most magical events ever as many students gathered to help make their teachers' day! Students spent plenty of sessions writing sweet and positive notes on potted plants to give to their teachers. Soon came the day, and when the teachers received their plants and compliments, they were over the moon. Seeing their smiles grow wider made the students' day as they realized how happy their teachers were. The SLO was able to spread positive vibes and gratitude to all the teachers on their special day.” – Chloe Hope Soweid, Grade 7

One Child, One Gift

SIS-Adma has always been proud of its association with the community and of working with parents to benefit those who are less fortunate. This is in accordance with the belief that giving is better than receiving. With this in mind, the SABIS® Student Life Organization (SLO) joined the Lebanese Red Cross, Jounieh, in the annual Christmas celebration of **“One Child, One Gift.”**

SABIS®
